

High School “Community Involvement” requirements

Community Involvement is a requirement for an Ontario Secondary School Diploma. The Ministry of Education has mandated students to volunteer for 40 hours of community involvement activities. The goal is to give youth the chance to:

- Gain civic responsibility and make a positive contribution to their community
- Enhance their self-confidence and self-image
- Build a network for future employment
- Allow students to create a portfolio of work experience

The TMFRC has opportunities for high school students to volunteer in their programs. If you're interested, please call Kim Frost at 416-633-6200 ext. 4316.
