

#MyVoice Tangible Impact: New Second Language Pilot

On #MyVoice, many of you have asked for Second Language Training that is flexible, is offered in-person (class-led) but with access on-line, would be useful for integrating into the community and would offer all levels of language training (beginner to advanced).

We are now running a pilot program to trial a new Second Language Training which is targeted to these goals. Check it out and let us know what you think!
